What is “Three Word Stories”?

A word game where you tell a story three words at a time. But there’s a twist!

- The story is told in pairs
- One person in the pair has a word that only they can see.
- Their aim is to try and get their partner to say hidden word

[Watch an Example](#)

How to Play

1. Get into pairs
2. First person picks up a card and reads the hidden word (keeps this to themselves)
3. First person says three words to start the story
4. Second says another three to continue
5. And repeat until word the second person says the hidden word.
